

## Technical Requirements:

<b>Size:</b>
1020x775x890 mm
<b>Weight:</b>
150kg unloaded
<b>Max Spray Flow Rate:</b>
With Flow Boost Valve: 90LPM @ 12bar
Without Flow Boost Valve: 50LPM @12bar
<b>Spray Pressure Range:</b>
2- 12 Bar
<b>Maximum System Pressure:</b>
20 Bar
<b>Electrical Power Required:</b>
12v, 200W typically connected via D-plug (DIN 9680)
<b>Hydraulic Flow Required:</b>
20L/min
<b>Liquid Treatment Capacity:</b>
2x20L, 2x10L containers can be fitted
<b>Solid Treatment Capacity:</b>
20kg+ per hopper (dependent on density of material)
<b>Screen Size</b>
10.1"
<b>Mounting:</b>
Front Mounted to Tractor: <ul style="list-style-type: none"><li>• Bolted directly to tractor chassis weight mounting points via custom plate (included in price)</li><li>• 3 point hitch, category 1, 2, or 3</li><li>• Additional tractor weights can be added if required, please contact for details</li></ul>
